## DETAILED ACTION

### *Election/Restrictions*

Applicant's election without traverse of claims 1-4, 17, and 21 is acknowledged.

Claim claims 5-16 and 18-20 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 2, 17, and 21 are rejected under 35 U.S.C. 102(e) as being anticipated by Hwang (U.S. Patent No. 6,186,352). Hwang discloses in Figure 6 a portable food container comprising element recited in these claims including a container (20) that is generally cup-shaped and having outer periphery (22), a lid having a handle (40) and inner periphery (241) that corresponds to the container's (20) outer periphery (22). The container and the lid are removable from one another. The container (20) has a narrow opening (21) to allow articles to pour into and out of the container. The introductory statement of intended use and all other functional statements have been carefully considered but deemed not to impose any structural limitations on

the claims distinguishable over the Hwang's container in the sense of 35 USC 102 (e) which is capable of being used as set forth in the claims.

***Allowable Subject Matter***

Claims 3 and 4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
